King Ferry Food Pantry

Still
Experiencing
Sticker Shock
at the
Supermarket?

Although grocery costs climbed at a slower rate in the beginning of 2024 and inflation decreased to 3.1% in January, analysts are predicting that food dollars will not go as far this year because of:

- **shrinkflation** (a downsized product with no price reduction);
- **skimpflation** (product now made with inferior components).

Please consider assisting our in-need Southern Cayuga County neighbors to meet their food challenges through your monetary or in-kind donations to the King Ferry Food Pantry.

Most popular items at the pantry during past three months:

Fresh Produce (bananas, potatoes, oranges, celery, apples, carrots, pears)

Frozen Protein (beef, chicken, pork, bologna, hams, hot dogs, ground turkey)

Canned Fruits (juice, peaches, pineapple, mandarin oranges, mixed fruit)

Canned Vegetables (pasta sauce, diced tomatoes, corn, beans)

Grains (bread, cereal, pasta, rice, oatmeal, pancake mix)

Canned Protein (tuna, peanut butter, chicken, chili)

Fresh Dairy (cheeses, eggs, yogurt, milk)

For more information, please contact Debbie at 315-497-2049 or see our website (kingferryfoodpantry.org) and Facebook page (King Ferry Food Pantry).

Sustainability Perspectives

April 2024

All talks in this series take place on **Mondays at 12:30PM**.
All presentations will be offered virtually via **Zoom**.

April 1 *Looking beyond the label: examining dairy sustainability standards*

Keeley McGarr-O'Brien, agricultural sustainability researcher, *TEAGASC*

Increasingly, sustainability labels are being used on many of our food products, including dairy. These labels are awarded by certification standards, with a set of sustainability demands farmers must meet in order for their milk to be included in the standard. Due to consumer and legislative demands, new standards are frequently being introduced in the dairy sector. However, until now little research has been conducted to examine the sustainability claims or the organizations administering the standards. Keeley's research has tackled this topic, with interesting findings on the variability and the sustainability focus of dairy standards, and potential future developments for the sector.

April 15 *Restoring Tree Cover in New York State*

Gregg Sargis, Natural Climate Solutions Specialist, *The Nature Conservancy*

The Nature Conservancy is working to restore tree cover through tree planting projects in New York State to sequester and store carbon, improve water quality, and provide wildlife habitat. A pilot project was launched in the fall of 2023 where 1,700 trees were planted to serve as demonstration and testing ground for scaling up tree planting projects across the region.

Upcoming Events at Opendore

As winter winds down, volunteers at Opendore look forward to the upcoming season as they schedule programs, plan new displays, and complete indoor renovation work. The read and discuss winter program once again has succeeded in fostering education and engaging conversation between the 15+ participants. Work continues on the documentation of collection pieces, conducting private tours, and planning new outdoor work for rebuilding historic structures and recreating the landscape that Isabel Howland so loved at Opendore.

Please add to your calendar the following dates:

Sunday, April 14, 4 p.m. - Cornell historian Corey Ryan Earle speaks on Isabel and Harriet May Mills and women's suffrage.

Sunday, May 5, 4 p.m. - Tom Griffith, CNYCF will conduct a Charitable Giving and Legacy Planning program.

Sunday, June 23, 4 p.m. - Bruce Tracey speaks about local trains.

More detailed news about these and other programs will be forthcoming and we hope you'll plan on joining us.

Reminders - Private tours are an option for any group or club that wishes to visit the Howland Stone Store Museum and Opendore. Just go to our website to schedule or contact any board member.

Volunteers are always welcome at Opendore. Work is varied and no special skills are required, just an interest in learning about local history and meeting like-minded people from the community. We look forward to meeting you!

"Since much of our (Native) history is minimally taught and not accurately, the Witness to Injustice Exercise is a good way to help people learn about these events and share their feelings about what occurred."
—Pretha Jacques, Turtle Clanmother, Onondaga Nation

The Witness to Injustice Exercise is a unique three-hour interactive group teaching tool. It uses participatory education to share the disturbing history of what Indigenous Peoples have experienced through colonization. The program seeks to foster truth, understanding, and respect between Indigenous and non-Indigenous peoples in the part of the world now known as the United States; especially in the territory stewarded by people of the Onondaga Nation and other Haudenosaunee peoples. Through the use of meaningful quotes and blankets that represent part of Turtle Island (the Western Hemisphere), we explore this shared history that non-native people rarely learn in school or other settings.

Native American Artifact Show

Sunday April 21
10:00 a.m.-2:00 p.m.

Montezuma Audubon Center, 2295 Route 89, Savannah NY

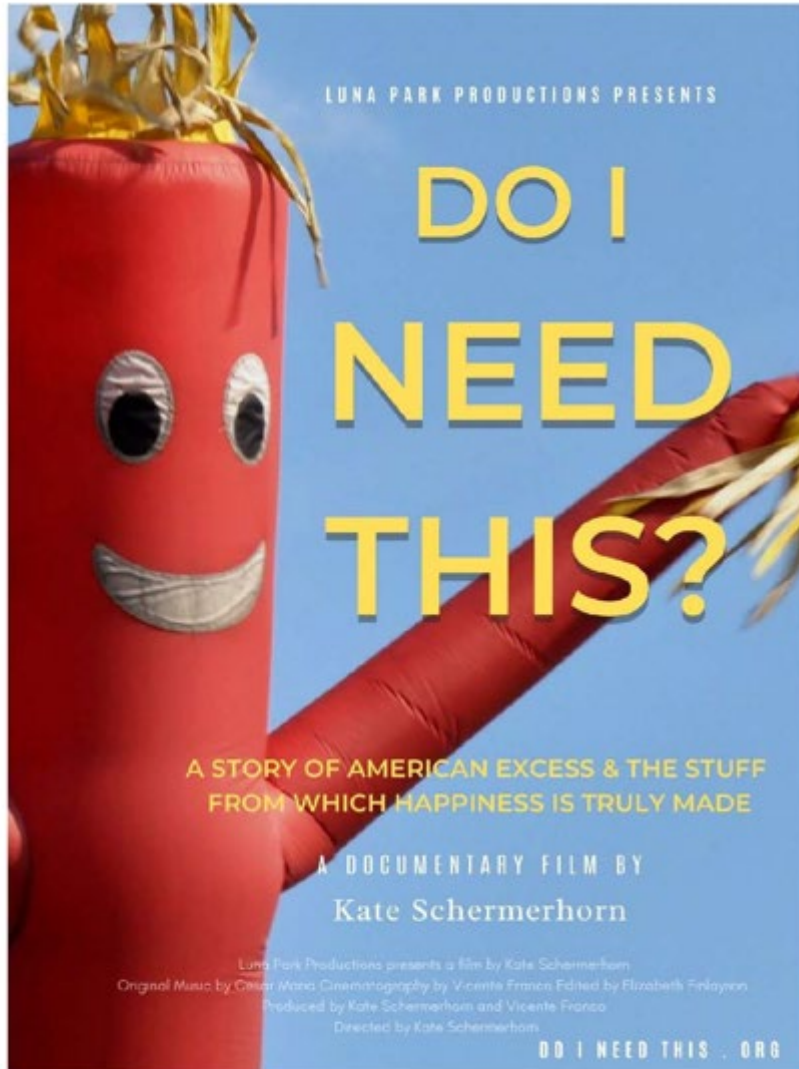

FREE ADMISSION and everyone is welcome to attend
Contact: czimdahl@yahoo.com

The first Americans to occupy Central New York State arrived from the west, about 13,000 years ago. They were nomadic hunter-gatherers who crafted tools for survival out of flint and other local stone. Some of these beautiful stone tools—arrowheads, spear points, axes, knives, and other artifacts—can still be found today.

A group of local collectors of these ancient tools is sponsoring the inaugural Savannah Area Native American Artifact Show. It is with sincere respect and admiration that local collectors display these examples of the first Americans' tool making artisanship.

The show is free and open to the public. Please plan on attending!

This documentary film is about consumerism, excess, and the stuff from which happiness is truly made.

This quirky, relatable, and profound award-winning film delicately interweaves the filmmaker's complicated relationship to her family possessions during the late stages of her parents' lives, together with a journey into the homes and minds of fellow Americans.

On the surface, *Do I Need This?* is a joy ride through our excessive consumption habits, but at its core, it is a deep and genuine reflection on happiness and aging, materialism, and mortality.

Runtime: 62 minutes

Wednesday, April 24, 2024 ~ 7:00PM
deWitt Lecture Room, 106 Zabriskie Hall

Free organic popcorn with organic butter will be served.
