CAYUGA LAKE NEEDS YOUR HELP KEEPING TABS ON HABs!

If you suspect you've seen a "HAB", please email the HABsHotline@gmail.com to report it ASAP!

KNOW IT:

- Because it is hard to tell a HAB from non-harmful algal blooms, it is best to avoid swimming, boating, otherwise, recreating in, or drinking water with a bloom.
- Depending on the weather and the characteristics of the lake, HABs may be short-lived (appearing and disappearing in hours) or long-lived (persisting for several weeks or more).

AVOID IT:

- People and animals should avoid contact with any floating mats, scums, or discolored water. Colors can include shades of green, blue-green, yellow, brown or red.
- Never ingest untreated surface water, whether or not algae blooms are present. In addition to toxins, untreated surface water may contain bacteria, parasites, or viruses that could cause illness if consumed.

REPORT IT:

- If you suspect that you have seen a HAB, please report it to CSI by emailing us at HABsHotline@gmail.com
- If possible, attach digital photos (close-up and landscape to show extent and location) of the suspected HAB.
- Please report any health symptoms to your local health department.

Need Help with Housework?

Anyone looking for extra help doing housekeeping work, basic landscaping, helping move, etc.: the Inns of Aurora has several J-1 workers here from China looking for hours. Please contact Morgan Festa at mnfesta@innsofaurora.com or Nikki Mitchell at Nmitchell@innsofaurora.com if you would like them to put you in touch with some of the workers.

Most of them are here until the end of August/beginning of September. The J-1 workers are in a program similar to a study abroad program; it is considered a “visitor’s visa” which allows young students to come to a different country to work for a semester. They work, but they also participate in some local activities to learn more about the different cultures.

Opendore News for August

Exciting construction is taking place at Opendore. Work on the East Porch is progressing, with the masonry in progress as the first step in construction. The columns have also been delivered and are ready once that step is reached. An outdoor work day included the sprucing up of the nature trail and you’re invited to take a relaxing stroll for relaxation when you can. Efforts by volunteers in the areas of grant writing, collections documentation and preservation, education, technology and programs continue to ensure that Opendore and the Howland Stone Store Museum continue to thrive and grow.

On Sunday, August 18, we invite you to join us for an Equal Rights Amendment Program at 4 p.m. at Opendore. Mickie Belosi, a NOW member and advocate, and will provide food for thought and an opportunity for questions regarding Proposition 1, the New York State Equal Rights Amendment. This information and overview will help attendees be prepared to vote from an informed position. This program will be in-person only.

A reminder once again that museum hours are Saturday and Sunday from 1-4 p.m. and by contacting any board member, organizations can schedule a private tour.

Denice Peter Karamardian, Author
Odar, A Historical Trilogy

Sunday, August 18
3:00 p.m.
Morgan Opera House

Denice Karamardian spent a lifetime searching for answers to her family’s Syrian and Armenian ancestry. The result is a trilogy, presented in a hybrid form as historical fiction and part memoir, based entirely upon the true story of the Karamardian family (known locally as the Peter family) across continents, wars, and generations. The series is called *Odar*, which means “other” in Armenian. The author tracks a parallel narration of her own coming of age as it relates to the discoveries she makes in her search for identity. The third and last book of the series is scheduled for release on August 20, 2024. This program is free, refreshments will be served and books will be available for sale which the author will sign.
